Contents

Echinococcus granulosus, a parasite producing hydatid cyst: a review

Human Monkey Pox – Dental Implications and Public Health Emergency

Next-Generation Vaccines and Antiviral Platforms: Molecular Advancements in the Struggle against Emerging Zoonotic and Viral Diseases

Prevalent Infectious Causes of Abortion in the Ruminant Population in Iran- A Literature Review

Glauconites: A Natural Ally in Cancer Prevention and Treatment

COVID-19 and ACE2 receptor in different tissues: From pathophysiologic function to therapeutic responses

Artificial intelligence in Combating Antimicrobial Resistance

Effectiveness of COVID-19 Vaccines in Mahabad, Iran: A Cohort Study

Seasonal study of Blood Parasites: *Dirofilaria immitis* and *Dipetalonema reconditum* in the Guard dogs of Tabriz city, Iran

Double Jeopardy: The Intersection of COVID-19 and Pregnancy in an Educational Hospital, Northern Iran, Gorgan

Seroprevalence of Fowl Adenovirus-4 using specific ELISA in backyard chickens, Golestan province, Iran: the first study

Molecular Cloning and Expression of the Fusion (F) Gene from Newcastle Disease Virus in *Escherichia coli*: A Platform for Further Studies

Screening and docking molecular studies of natural products targeting overexpressed receptors HER-2 in breast cancer

Determination of insulin resistance, β -cell function and insulin sensitivity using modified homeostatic model assessment in diabetic rats treated with melatonin

Prevalence of tuberculosis/COVID 19 co-infection among active tuberculosis patients at a tertiary care hospital in Uttarakhand, India

Isolation and purification of the Burkholderia mallei antigenic proteins and its use in diagnostic tests

Histopathological Diagnosis and Detection of Avian Pathogenic Escherichia Coli Virulence Genes in Broiler Chickens in Indonesia

Detection of antibiotic residues of Tetracycline, Oxytetracycline, and Chlortetracycline in animals' raw milk in Hamedan province, Iran in 2022 using the Four-Plate Test, ELISA and HPLC techniques

Apis mellifera intermissa venom attenuated colitis-associated cancer progression in azoxymethane treated mice

Prevalence and Risk Factors of Various Gastrointestinal Malignancies

Silent Threat: Investigating the Prevalence of Cytomegalovirus in Expectant Mothers in Northern Iran, Gorgan

RAS-Related C3 Botulinum Toxin Substrate 1 Inhibition Attenuates Platelet Chemokine Activation in Diabetes Mellitus

Molecular and Bioassay Examination of Neospora Caninum Infection in Bovine Aborted Fetuses in Khorasan Razavi Province, Iran

Probiotic Strategies for Detoxification of AFM1 in Skim Milk Using Bifidobacterium Lactis and Streptococcus Thermophiles

Authentication of RBK (Razi Bovine Kidney) Cell Line Derived from Primary Kidney Cell

Impact of Green-Synthesized Silver Nanoparticle in Wistar Rats: Behavioral, Biochemical, And Histopathological Insights from Acute and Sub-Acute Oral Exposure

Pinocembrin Isolated from Nigerian Propolis Prevents Elevation of Cytokines Implicated in the Aetiology of Diabetic Retinopathy in Rat Models of Diabetes Mellitus

Research on the synergistic effect of a novel apoptosis inducer combined with AKT and HSP90 selective inhibitors on hormone-sensitive and hormone-resistant breast cancer cell lines

Expanded Leptospirosis Syndrome – An Unusual Case

Multimodal Diagnosis and Management of Canine Ascites: A Clinical Case Report
