Contents

An overview of monkey pox disease as an important disease in the world

Can manganese oxide nanoparticles synthesized by green route be used in Tumor Therapy? A Narrative Review

Comprehensive analysis of Papillomavirus (PV) and its implications in cancer: Bridging the gap between human and veterinary medicine

A concise review of major challenges in the vaccination, diagnosis and treatment of novel coronavirus disease 2019

Probiotics under Selective Pressure: Novel Insights and Biosafety Challenge

Evaluation and optimization of loop-mediated isothermal amplification (LAMP) technique in capripoxvirus diagnosis and its comparison with PCR method

Breast cancer - Clinicopathological profile at a tertiary cancer center in India

Synergistic Influences of Mentha Piperita and Clinoptilolite: A Study on Histologic and Morphometric Outcomes

Involvement of the orexin 1 and 2 receptors in nucleus incertus (NI) on modulation of spatial reference memory in the Morris water maze

Safflower-derived cationic lipid nanoparticles: potential impact on the delivery of SARS-CoV-2 mRNA transcripts

The Effects of Different Level of Synbiotic Supplementation in Diet of Broiler on Growth Performance, Intestinal Histology and Microbial Colony

Investigating the effect of eradication of Helicobacter pylori infection in controlling blood sugar in diabetic patients

Assessment of COVID-19 vaccine knowledge, attitude and practice among the general population in Duhok Province, Kurdistan Region of Iraq: A retrospective cross-sectional study

The effects of stem cell-conditioned media on malignancy behavior of breast cancer cells in vitro

Seroprevalence and factors associated with CCHF virus infection in cattle and sheep in Mopti region (Mali)

Detection of Contagious Caprine Pleuropneumonia in Three Provinces of Iran: 2017-2018

Evaluation of Anti-Inflammatory Effects of Chitosan film Loaded *Arnebia euchroma* Extract through In Vitro and In Vivo Studies

Prevalence of biofilm and efflux pump genes expression by PCR and antibiotic resistance pattern in *Pseudomonas aeruginosa*

New food preservation candidate *Zataria multiflora* dendrimer synthesis and antimicrobial assessment

Investigating the antibiotic resistance pattern of MRSA in cancer patients

Effect of Three Insect Growth Regulators on The Avian Malaria Vector -*Culiseta longiareolata* Larvae- Field Population

Phytochemical screening, protoscolicidal activity and mechanisms of action of *Taraxacum officinale* extract against hydatid cyst protoscoleces

Inflammatory Markers in Cows Affected by Subclinical Mastitis due to *E.coli* and *Staphylococcus* Infections

Evaluation of *icaA* and *icaD* genes involved in biofilm formation in *Staphylococcus aureus* isolates from clinical sources using Reverse Transcriptase PCR

***Listeria monocytogenes* isolated from Ready-to-eat Food Products in Tehran: Prevalence and Antimicrobial Resistance**

Tumor-Associated Tissue Eosinophilia in Oral Squamous Cell Carcinoma: Implications for Histopathologic Grading

Investigating the effect of Quince seed mucilage film reinforced with carboxymethyl cellulose containing ginger essential oil on the microbial, physicochemical and sensory characteristics of turkey meat

Comparison of telomere structure in eukaryotes

A new distribution record of *Eirenis walteri* (Boettger, 1888) (Ophidia: Colubridae), In Yazd province, Central Iran

Neck Muscle Hemorrhage in an Alpine Kid Following Enterotoxemia: a New Necropsy Finding
